truckstar

For more than 40 years, **Truckstar** has been the only **magazine for truck drivers** in the Netherlands and Belgium. Truckstar focuses on transport and logistics in general and the profession and lifestyle of drivers, entrepreneurs and decision-makers in particular.

Every 4 weeks a new issue of Truckstar is published, with a fresh mix of news, driving reports, truck tests, background on the world of transport, photography and human interest.

Truckstar has a unique editorial mix: it is both a **consumer** and a **trade magazine**. The magazine is the voice of truck drivers everywhere, close to their lifestyle and mentality. Surveys show that this approach works: drivers see Truckstar as a trusted companion that takes their work seriously.

The focus is on **reporting** about the drivers, their trucks and preferably during their daily work. **News** from the **transport sector** and the **trucking industry** are given prominent attention. The **Truckstar road test**, in which new trucks are put through their paces, attracts a great deal of attention from readers, the transport sector and the truck brands. In short, Truckstar gives road transport a stage.
